

2021 RESERVED PIT PARKING

For the 2021 season, teams will be able to once again reserve their parking spot. Make sure your spot is there when you arrive for a scheduled night of racing. Rentals for the 2021 season will be done on a first come first serve basis and by division. 350 Super, Late Models, Streeter, Slingshots and Six Shooters. As with other years, rentals **DO NOT** include GSPSS events, Tri-Track Mods and Star Classic. Like this year we will try to move teams to accommodate everyone on special event dates but available spaces will also go in same order as listed above.

Spaces are **not transferrable** and are only rented **to you for nights that your division** is scheduled to race.

We will be assigning pit pads this year by division. Divisions will be parked together as was done during the 2020 racing season.

The rental fee for the 2020 season is \$150.00 for cement and asphalt pads on the parking lot side of pits and new cement pads along railroad bed, \$100 for asphalt pads on back side of pits and \$175 for cement pads behind pit grandstands.

Please return the following to with check made out to: **Little Webb's**, PO Box 1150, Epping, NH 03042
